

## Virtus Academy Title I Plan

Employ 1 full time Instructional Interventionists to identify struggling and at-risk students and work with those identified students in a small group setting to address their individual math needs.
Purchase three software licenses (Renaissance, Gizmos and Progress Learning) to provide additional instructional resources to support literacy growth, academic excellence and student engagement.
Purchase a school wide Teacher Pay Teacher license to provide teachers with additional resources for academic excellence.
Provide supplemental reading materials for students to increase reading proficiency by purchasing books for classroom libraries for grades K - 10. All books and subject matter will be appropriate for the age, grade, and subjects being taught.
Purchase supplies and materials to support Project-Based Learning projects. The purpose of these materials is to provide supplies for students to complete their PBL activities that will be based on grade-level standards.
Purchase a school-wide Parent Square license to provide a communication platform to increase parent/family communication and strengthen the home-school connection.
Purchase supplies for the parent and family engagement events. Those events include: Literacy and Math events and our PBL Showcase.
Employ one .5 FTE Federal Programs Coordinator to monitor the expenditures of Title I including: overseeing and managing data, writing plans, communicating with staff, parents, and the district, and planning parent/community Title I events.
Provide stipend funds for grades 2-10 afterschool tutoring.
Professional Development for Federal Program Coordinator
Purchase student academic and behavior achievement awards. Funds include purchase of PBIS awards supplies, LIM awards supplies, academic awards supplies, and academic celebration supplies.
Purchase Scholastic Magazine subscriptions for grades 3-8. These subscriptions will assist our students in meeting state standards in key content areas. They offer engaging and effective ways to prepare students for standardized testing and summative assessments. This subscription offers grade-level content with texts that interest students, culturally relevant texts, and prioritize SEL. They also offer a host of different resources for teachers.
Purchase PE curriculum based STEM kits. These kits will align with our PE curriculum and provide additional STEM learning opportunities for grades K-8.
Total Allocation = \$175,018.50

Kristen Kleine - Federal Programs Coordinator
